Model 24-66MMSK (Desk Microphone)
Model 24-66HMSK (Handset)

IDA Corporation's industry leading Mini-Console Deskset, now with digital signaling, provides the high speed switching and communication required for demanding trunking systems.

As your communication needs grow and change, the 24-66MSK will keep up. Standard features that are not needed now can be activated later with simple programming done in the field: monitor, intercom, mute, scan, alpha-numeric display, number of channels, system & groups or zones & channels, and full faceplate programmability.

Features and Capabilities

- Field Programmable by PC
- Control and display up to 99 channels and groups or zones and channels
- Monitor
- Intercom
- Scan
- Programmable faceplate for Auxiliary functions
- Mute
- 30 dB of compression and 3 watts of speaker audio

Available Options

RBC-001 - Wall mounting bracket

RBC-002 - External Encode/Decode Cable

Model 20-28MSK
Digital Termination Panel

These radios can be directly controlled by the 20-28MSK:

EF Johnson RS5300
- Interface cable is IDA part #106-28EF5300
- (Requires EFJ Cable #597-2002-249)

EF Johnson Summit
- Interface cable is IDA part #106-EFJ28SUM

EF Johnson 9800 Series (high tier)
- Interface cable is IDA part #105-28EFJ98 KIT
- (Requires EFJ Cable #597-9800-005)

KENWOOD TK-7180/8180, TK 5710 (Project 25)
- Interface cable is IDA part #106-28KEN8180

KENWOOD TK-780/880/980/981
- Interface cable is IDA part #106-28KEN880

KENWOOD TK-790
- Interface cable is IDA part #106-28KEN790

DATRON Guardian
- Interface cable is IDA part #106-28DATG25
